

I am thinking mathematically when...

	<p>1. I enjoy working on math and continuing to try to find the answer even when the problems are difficult.</p>
	<p>2. I connect what I am learning to what I have learned before in math.</p>
	<p>3. I relate the math we are learning to everyday life outside of math class.</p>
	<p>4. I try different strategies to solve math problems.</p>
	<p>5. I use logical reasoning to make sense of math problems and determine what to do next.</p>
	<p>6. I think of new ways to solve math problems and new problems to solve.</p>
	<p>7. I recognize patterns in math and use them to organize information.</p>
	<p>8. I understand and use relationships between numbers to order, compare, and estimate.</p>
	<p>9. I can figure out how shapes fit together in different ways.</p>
